

## Aspen Fire Protection District **Board of Directors** Special Meeting

**MEETING DATE:** 

December 7, 2021

LOCATION: 420 E Hopkins

**MEETING TIME:** 

11:00am

The public is welcome to join this meeting virtually through Zoom. To join, please go to:

https://us02web.zoom.us/j/81866250163?pwd=eVEvSkRrdDZNYW9BZ0dwY0dUSkphdz 09 Meeting ID: 818 6625 0163 Passcode: 365443. Please contact Nikki Lapin, District Administrator at <a href="mailto:nikki.lapin@aspenfire.com">nikki.lapin@aspenfire.com</a> if you need additional information.

## **AGENDA**

- Meeting called to order I.
- II. Roll Call
- Pano AI Overview III.
- IV. North 40 Roofing RFP Review
- V. **Staffing Review**
- VI. 2022 Draft Budget Review

Ascent Building Consulting, Inc.

872 Eveningsong Drive Castle Rock, Colorado 80104 Tel: 303-877-1119

November 29, 2021

Aspen Fire Department c/o Mr. Rick Balentine Fire Chief 420 East Hopkins Avenue Aspen, Colorado 81611

Re: Summary of Bid Results for Aspen Fire Station #62 Re-Roofing Project

Fire Station 62 Reroof

043 Sage Way Road, Aspen, Colorado

Ascent No.: 21027

Dear Mr. Balentine:

We have received three bids from bidding contractors for the Bid Documents prepared on October 25, 2021 for the Re-Roofing Project at Fire Station #62. The bids are attached for your review. The following is a brief summary of the bidding results:

Bid Summary - Base Bid

Did Callinary Date Dia			
Bid Item	Ajax Roofing	The Roofing Company	Pacific Sheet Metal
Base Bid Reroofing	\$315,750	\$336,357	\$393,905*
Subcontractors	Lightening Protection - TBD	None Listed	None Listed
Exceptions	Bid Carlisle in Lieu of Firestone	Bid Carlisle in Lieu of Firestone	Bid Carlisle in Lieu of Firestone
Reported Timeline to Complete Base Bid from Notice to Proceed	45-60 Days in Spring of 2022	40 Days	None Listed

Excludes portion of PSM's bid for roof replacement over Communications which is not a part of the scope of reroofing work.

## **Bid Analysis**

Ajax Roofing appears to have provided the most competitive bid, and The Roofing Company the second most competitive bid. Pacific Sheet Metal's bid is the highest, did not utilize the provided bid form, and also included a bid to replace the roof over the Communications portion of the building which was not a part of the scope of work. As such, we do not recommend that Pacific Sheet Metal be considered for this project due to a lack of following the Bid Documents.

We have worked with Ajax Roofing in the past on the ANB Bank reroofing project in downtown Aspen which was very difficult due to site access issues and extensive rooftop mechanical equipment. Their quality on this project was very good. As a result of their being the lowest bid as well as having a history of good work quality, we recommend awarding the reroofing project to Ajax Roofing.

We will be recommending that the Board also account for a contingency of approximately 10% to address substrate repairs or other foreseen conditions if needed. This amount would be additional to the Base Bids noted above.

Aspen Fire Department Mr. Rick Balentine November 29, 2021 Page 2 of 2

It is the Board's ultimate decision on whom to select as the roofing contractor. The Board can feel free to choose amongst the contractors above to interview and ultimately award the project.

Please contact us if you have any questions.

Sincerely,

Ascent Building Consulting, Inc.

St B\_

Steve R. Bunn, RRC, RRO

President

November 24, 2021

Ken Josselyn – Captain Aspen Fire Protection District

Steve Bunn – President Ascent Building Consulting Inc.

To Whom it May Concern,

Thank you for allowing Ajax Roofing Company to bid your project. We have attached your Bid Form, a letter from Carlisle approving the 25 year warranty and a copy of our project specific inclusions.

We have completed dozens of similar flat roof commercial projects in Aspen and the Roaring Fork Valley without single roof leak including the Aspen Police Station, the Aspen Music School (8 buildings), Berthod Motors (4 buildings), Aspen Meadows, One Aspen (5 buildings), Hunter Creek Condos (7 buildings), ANB Bank in Aspen, Bank of Colorado in Glenwood, and Alpine Bank in Rifle. We have also completed hundreds of residential projects with the same materials.

Our goal would be to start in Spring of 2022. With good weather, we are looking at a 6-8 week schedule.

Ajax Roofing provides superior service with highly trained roofers, many of our employees have been working together in Aspen for over 20 years. All of our roofers are employees and we never use contract labor. We have a management staff of five meaning your questions and phone calls will be responded to immediately. As most of our work is referral, we strive to make every client extra happy. We are happy to provide a list of references to check us out.

Please give us a call if you have any questions.

Thank you,

Brady Emens Ajax Roofing Company

## **SECTION 00310**

## **BID FORM**

To:	Aspen Fire Protection District
Project:	Aspen Fire Station #62- Re-roofing Project
Date:	November 24th, 2021
Bid Sub	mitted By: Ajax Roofing Company LLC
Gentlem	en:
1.01	The undersigned, hereby offers to enter into a Contract with the Owner to perform the Work, based on the following:
	BASE BID: In general, the scope of Base Bid Work includes reroofing of the north and west roofs as shown on the Drawings, but is not necessarily limited to, the following:
	<ul> <li>Remove and legally dispose the existing single ply membrane, associated membrane flashings, roof cover board, tapered insulation, and flat stock insulation down to the steel roof deck.</li> <li>Loose lay two layers of 2.8" flat stock polyisocyanurate insulation to resist wind uplift forces.</li> <li>Fully adhere ¼":12" tapered insulation system over the entire roof surface with two component adhesive with beads spaced 6" o.c.</li> <li>Total minimum R-Value of insulation assembly to be R-35.</li> <li>Fully adhere 1/2" DensDeck Prime roof cover board over the entire roof surface with two component adhesive with beads spaced 6" o.c.</li> <li>Install two layers of 2x8 PT lumber around the perimeters of Roof Areas A and B noted in the drawings.</li> <li>Fully adhere 60 mil Firestone reinforced TPO roofing membrane to the cover board.</li> <li>Remove and replace all coping caps with a gravel stop detail with TPO clad metal flashing with a pre-finished metal cover matching the color and finish of underlying metal panels.</li> <li>Remove and reset existing metal panel siding as required to install new flashings. Trim bottom of panels as needed to ensure bottom 'J' closure attachment is 8" above roof surface. Seal fastener penetrations for bottom 'J' closure.</li> <li>Remove, reinstall, and recertify lightening protection system.</li> <li>Coordinate roof flashing installation around solar panel supports (final location of support TBD).</li> <li>Obtain and pay for all applicable permits associated with the roofing replacement.</li> </ul>
	for the Contract Sum of:
	Three Hundred Fifteen Thousand Seven Hundred Fifty Dollars
	Dollars (\$ 315,750.00

## **LIST OF SUBCONTRACTORS**

lated November 24, 2021	and which is an integral part of the Bid Form.	
The following work will be performed (or pro	ovided) by Subcontractors and coordinated by us:	
SECTION OR NATURE OF WORK	SUBCONTRACTOR NAME	
All of our labor is performed by employe	es	
Lightening Protection - TBD		

**END OF SECTION** 

Aspen Fire Station #62 0043 Sage Way Rd Aspen, CO November 24, 2021

Proposal of work is based on a site visit and bid package dated October 25th, 2021

## Flat Membrane Roof Replacement

- To include approx. **7,176 Sq. Ft.** of roofing.
- Tear off existing 6" Insulation, Taper System, Cover Board and Membrane over entire specified roofs, curbs and interior roof walls and haul waste off site.
- Install (2) Layers of 2" x 8" PT Wood Framing at Areas Shown on Plans
- Furnish and install (1) Layer of 2.8" Poly Iso (loose laid) and (1) Layer of 2.8" Poly Iso
   Mechanically Attached to Steel Deck
- Furnish and install ¼" per ft. Poly Iso taper system toward drains with adhesive at 6"
   OC.
- Furnish and install 1/2" Densdeck Primed, 4' x 4' sheets, with adhesive at 6" OC.
- Furnish and install 60mil TPO fully adhered, mechanically fastened with heat welded seams including up walls and over all curbs and parapets.
- Fabricate and Install new 24 gauge prefinished metal gravel stop over TPO Metal
- Remove Metal Panels on Upper Roof Walls & Cut Short to Accommodate New Roofing and Re-Install
- Furnish and Install all new pipe penetration flashings and re-flash existing Solar Supports
- Includes Carlisle 25 year Roof Warranty
- Includes Roof Permit, Temp Toilet, \$2,000 allowance to certify lightening protection

## Total Bid \$315,750

## **Price Excludes**

- Drain Replacement
- Repair of Newer Roofs. We are happy to help diagnose and repair the leaking on the two new roofs on an hourly basis.
- Snow Removal project is anticipated for Spring or Summer of 2022 so no snow removal should be necessary.

Unless specifically noted above, there are no additional terms presumed to be included in this proposal. Payment to be made as follows: 30% materials deposit, 30% upon half of roof completion, 35% upon final completion and 5% Retainage for warranty paperwork completion & re-certification of the lightening protection system.

All material is guaranteed to be as specified. All work to be completed in a quality like manner according to industry standard practices. Any alterations or deviations from scope of work listed above will be executed upon receipt of a signed change order and will become and extra charge over and above this contract. **Bid is good for 60 days.** 

Acceptance of Proposal: The above prices, specifications and conditions are satisfactory and are hereby accepted. Payment will be made as outlined above.

Re:

Aspen Fire Station 62 - Aspen, CO

To Whom It May Concern:

This letter shall acknowledge that the proposed roofing assembly is eligible for warranty consideration by Carlisle SynTec.

The assembly below qualifies for the UL Class "A" fire rating, subject to a maximum slope restriction of 3" per foot.

Roof Height:

Less than 50'

Membrane:

Carlisle's Sure-Weld 60-mil TPO membrane adhered using Cav-Grip III or

Sure-Weld TPO Bonding Adhesive.

Cover Board:

1/2" DensDeck Prime cover board adhered using Flexible FAST or Millennium

One Step beads spaced 6-inches on center throughout the entire roof area.

Insulation:

Tapered InsulBase Polyiso insulation adhered using Flexible FAST or Millennium One Step beads spaced 6-inches on center throughout the entire

roof area.

Insulation:

Two layers of 2.8" InsulBase Polyiso insulation. The top layer is mechanically attached to the deck using Carlisle fasteners & insulation plates at a rate of 8 per 4'x8' board in the field, 16 per 4'x8' board in the perimeter and 32 per

4'x8' board in the corners.

Deck:

Minimum 22-gauge or heavier steel deck.

The roofing assembly described herein, represents Carlisle's minimum warranty requirements. It is not intended to modify, negate or alter any requirements dictated by the specifier or mandated by the building code or the building owner's insurer. Carlisle's review and inspection is strictly for the purpose of issuing the Carlisle warranty.

System enhancements pertaining, but not limited to, membrane thickness, insulation type and thickness, flashing height, slope requirements and membrane terminations (beyond those required by Carlisle) are to be complied with when specified unless approved by the Architect / Consultant. These conditions are considered above and beyond the scope of Carlisle review and take precedence.

Upon completion of an inspection by a Carlisle Field Service Representative to confirm that the roof system has been installed in accordance to Carlisle Specifications, Carlisle will issue a 25-year warranty with 55-mph peak gust wind speed coverage. Unless purchased or supplied through Carlisle, please note that performance, integrity, and impact of products by others is not included under coverage of the Carlisle Total System Warranty.

If you have any questions or need any additional information, feel free to contact our office.

Sincerely.

JOB NAME

Fire Station 62 Aspen

JOB ADDRESS

AABC Fire Station, Aspen Airport Business Center, Aspen, CO 81611

We appreciate the opportunity to submit this proposal for the above referenced project based on pricing plans prepared by Architect dated DATE and offer the following to define and clarify the scope of our proposal.

## Carlisle Fully Adhered 60-mil TPO System to Include Approx. 4,000 Sq. Ft. at Phase 1 Over Communications.

- Provide labor and material to install Carlisle Air Vapor seal MD over 100% of metal deck substrate per Carlisle's specifications and to meet 20-year system warranty.
- Provide labor and material to install the 1st layer of ½" Secure Shield HD per manufacturers recommended specifications to achieve 20-year system warranty with it being mechanically attached to steel decking.
- Provide labor and material to install new thermal insulation to meet International and Pitkin County building codes, R-49 (8.75"), insulation that will be in two layers of 4x4 4" pieces that will be laid in Carlisle Flexible fast board adhesive to achieve 8" insulation build up.
- Provide labor and material to install '4" per foot tapered insulation boards that will also be laid in Flexible Fast board adhesive over the two layers of 4" to create a positive slope to existing roof drains.
- Provide labor and material to install 2<sup>nd</sup> layer of ½" HD cover board over thermal and tapered insulation using Carlisle Flexible Fast board adhesive.
- Provide labor and material to install Carlisle 60-mil Fully Adhered membrane over 100% of roofing assembly per manufacturers recommendations and details.
- Provide labor and material to install all roof related sheet metal flashings using Drexel 24 Ga. Kynar 500 paint coated sheet metal flashings that will be formed in Pacific Sheet Metal's manufacturing shop.
- Provide labor to clean and properly dispose of all roof related debris into GC provided container.
- NOTE: Curbing by others.
- NOTE: Carlisle 20-year system warranty included in bid price.
- NOTE: Bid price includes labor for Pacific Sheet Metal to remove wall panels where needed.

**Bid Price: \$210,693.00** 

## Tear-off Existing Roofing Material at Phase 1 to Include Approx. 4,000 Sq. Ft.

- Provide labor and material to remove existing roofing material down metal decking.
- Provide labor to properly clean and dispose of any roofing debris into GC provided dumpster.

Bid Price: \$16,491.00

## Carlisle Fully Adhered 60-mil TPO System to Include Approx. 4,000 Sq. Ft. at Phase 2 Over Truck Bay #'s 4, 5, 6.

 Provide labor and material to install Carlisle Air Vapor seal MD over 100% of metal deck substrate per Carlisle's specifications and to meet 20-year system warranty.

## Tear-off Existing Roofing Material at Phase 3 to Include Approx. 3,500 Sq. Ft.

- Provide labor and material to remove existing roofing material down metal decking.
- · Provide labor to properly clean and dispose of any roofing debris into GC provided dumpster.

Bid Price: \$14,903.00

Substrate Exclusion: Any damaged or deteriorated substrate will be replaced on a time and material basis.

**SNOW REMOVAL PRICING: \$90.00/HR/MAN** 

## Roofing Exclusions:

Snow and ice removal, demolition of any kind, horizontal and vertical waterproofing, interior flashings, window and door flashings, through wall flashings, all woodwork other than that listed above, insulation other than that listed above, eave and valley snow and ice melt systems other than listed above, gutters and downspouts other than listed above, saw cutting, ice dams and damage caused by ice dams, liquidated damages, bonds, permits and fees, and all non-related metal sheet goods.

## **Price Acceleration Provision:**

If there is an increase in the actual cost of the labor or materials charged to the Contractor is more than 5% after making this Agreement, the price set forth in this Agreement shall be increased without the need for a written change order or amendment to the contract to reflect the price increase and additional direct cost to the Contractor. Contractor will submit written documentation of the increased charges to the Prime Contractor/Owner upon request. As an additional remedy, if the actual cost of any line item increases more than 10% after the making of this Agreement, Contractor, at its sole discretion, may terminate the contract for convenience.

## Material Availability Provision:

Due to material shortages, customer may experience delays related to the inability to timely obtain material for this project. In the event of such a delay, Contractor shall notify customer, and customer agrees to provide contractor with an extension of time for any delay attributable to the temporary inability to obtain materials.

## Unless specifically noted above, there are no additional terms presumed to be included in this proposal.

Progress billing to Owner/Contractor according to an agreed schedule shall be paid periodically based on percentage of work completed, within 30 days of submitting invoice. If retainage is required, it shall not exceed 10% of the total contract. Final payment shall be made no later than 30 days after completion of Pacific Sheet Metal's work.

All material is guaranteed to be as specified. All work to be completed in a workmanlike manner according to standard practices. Any alterations or deviation from above specifications will become an extra charge over and above the estimate. All agreements contingent upon strikes, accidents, or delays beyond our control. Property owner to carry, fire, tornado, and other necessary insurance. Our workers are fully covered by Workmen's Compensation Insurance.

Note: Due to continual price increases this proposal will be withdrawn if it is not accepted within 10 business days. Color selections & Material selections are required upon acceptance of this proposal.

Acceptance of Froposal: The above prices, specifications and conditions are satisfactory and are necessary accepted. You are	
authorized to do work as specified Payment will be made as outlined above	
Authorized Signature	

## Reminder: Pilot key performance indicators

- System uptime (hardware & software)
  - Ability to rapidly diagnose firmware and hardware issues when they arise and solve software,

## Accuracy and speed to detection for Al alerts

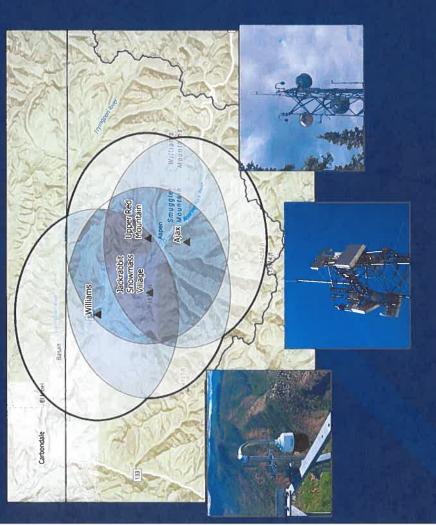

- detection vs. existing feeds Time to Pano Station (e.g., 911 calls)
  - Accuracy of Al detections Intelligence Center (PIC) sent from the Pano

## Partnership building and program management

- communication with AFPD Collaboration & team
  - feedback into software Integration of AFPD when possible

# Four Pano Stations were deployed on time across Pitkin County/AFPD

- Williams, Jackrabbit and Ajax were
- deployed week of July 5th
  Elk Mountain Tech led on installation with on-the-ground support from Pano VP of Ops Brad Ferkol and Systems Engineer Sean Donohue
- Upper Red deployed week of July 12th by Elk Mountain Tech (later due to site rebuild)

with Al-Based Wildfire Detection System Portland General Through EPRI's Incubatenergy PG&E, Portland General Complete Pilots The pilot programs have demonstrated the power of ultra-high-definition Startups are tapping Al technologies associated with facial recognition to identify potential outbreaks Technology Pilot Program with PG&E and Firefighting Agencies Enlist AI to Spot Pano Al Announces Wildfire Detection Beyond Aspen, ~20 additional deployments across Northern + Southern Big Sky, Big Data: Mont. Area Pilots Al for Wildfire The Big Sky Fire Department, located in the commercial Sty Fire Department, located in the commercial Sky Fire Department Sky Fir WSJ PRO Labs Wildfires gevernin-11 technology out Pano's AI wildfire detection technology to held Aspen Fire Protection District pilots new Strategically placed cameras, artificial intelligence help spot wildfires THEASPENTIMES STRWINGS SERVEN COLORADO improve response efforts. # AFPD Pano 360 Training Sessions Conducted In-person and Online

July 12th, July 25th Pano system overview and user training sessions

## 25+ users trained & accounts created across broad range of organizations, including:

- AFPD personnel and Board members
- Pitkin County Sheriff
- Pitkin County Public Safety / GIS
- Aspen Hospital / EMS
- Carbondale Fire
- US Forest Service

# 10+ software enhancements introduced this fire season

Feedback from government, utility and insurance users actioned and changed implemented

## Highlights

- 1) Bearing scale on the image player that shows the compass direction
- 2) Map view widget on top of the full screen player, which shows the map viewshed in context to the 360 panoramic imagery
- 3) Distance from cameras for triangulated incidents
- 4) Enhanced triangulation

## Triangulation Ease of Use by Pano Users

Pano observed triangulation use with first-time app users for static geographic locations

## Station 1 View

Station 2 View

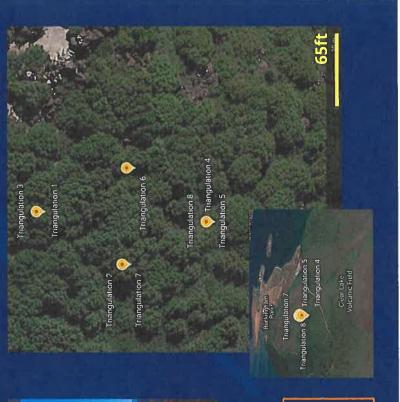

**Triangulation Results** 

Station 1: Prather Distance: 7.6mi

Station 2: Clearlake Oaks Distance: 7.5mi

Eight new Pano customers triangulated Mount Konocti with a maximum distance of 141ft between coordinates

## Additional enhancements in progress

The 2022 feature roadmap includes Optical Zoom and Accelerated Notifications

## Optical Zoom

- 1. Allow Pano users to utilize the 30x optical zoom to get a custom view of the station viewshed
- Limit the use of the Optical Zoom to users who are authorized for the feature 2
- Balance system ability to perform optical zoom on single location and also gather 360 images m i

6 miles

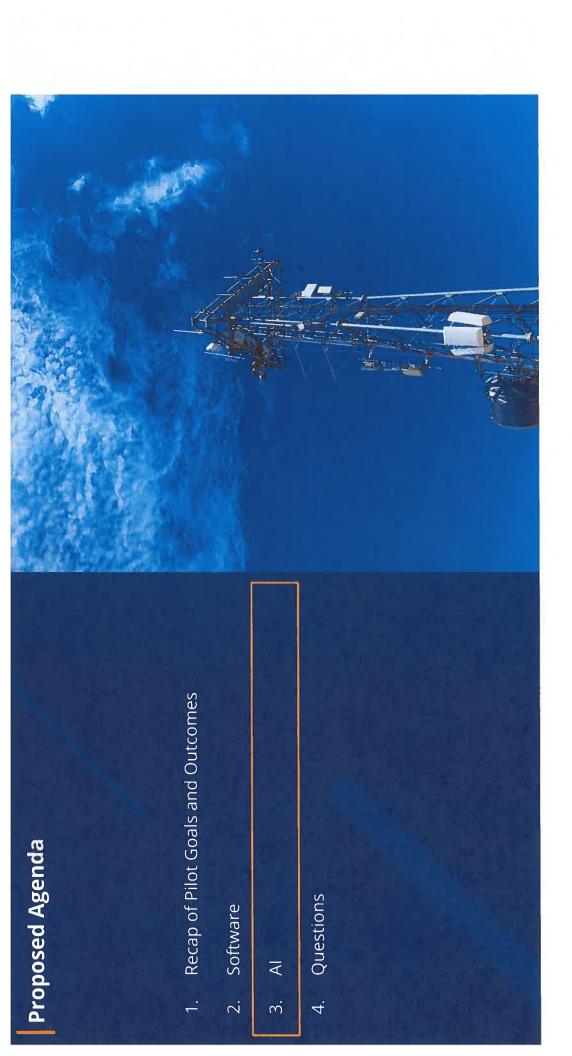

30x Optical Zoom

## **Accelerated Notifications**

- Decrease time to send notifications at the incident is confirmed
- Have custom notification rules for incident types per organization

# Smoke Detection Al: Two Key Business Metrics (with trade-offs)

## Accuracy (False Positives Rate)

## What percent of detections are true incidents?

% of new detections which are false positives

## Speed (Time To Detection)

## How quickly are new incidents detected?

Minutes between visible smoke and Al detection

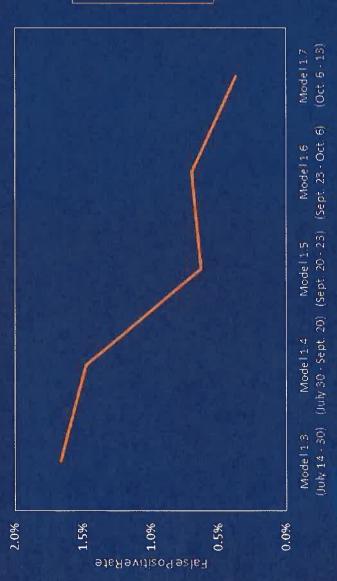

Fano At Confidential

## Live Incident Dataset: False Positive Rate

The false positive rate significantly decreased throughout the pilot as Pano's AI model learned from previous false positive data collected from our 20+ Station Deployments

## False Positive Rate By Model Version / Time Period

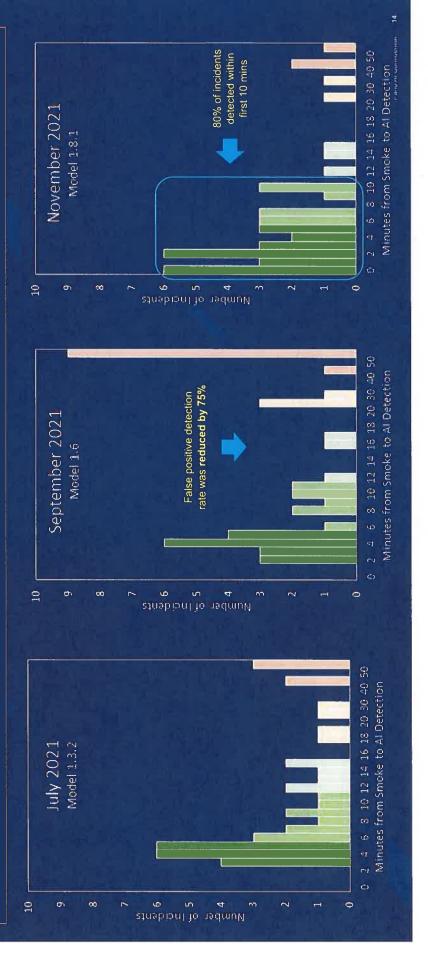

responders was 90%+ throughout Accuracy rate of Pano email + text alerts to utilities and first the pilot Example of false notifications included: Geysers, Industrial Smoke, Prescribed Burns, etc.

Note: False positives are defined as individual frames that generated a smoke alert, but no smoke incident was found in the image by the Pano Intelligence Center.

# Time to Detection: Progress On Model Throughout Pilot

# Pano Al Production Models: 25 HPWREN Fires + 15 Pano Fires

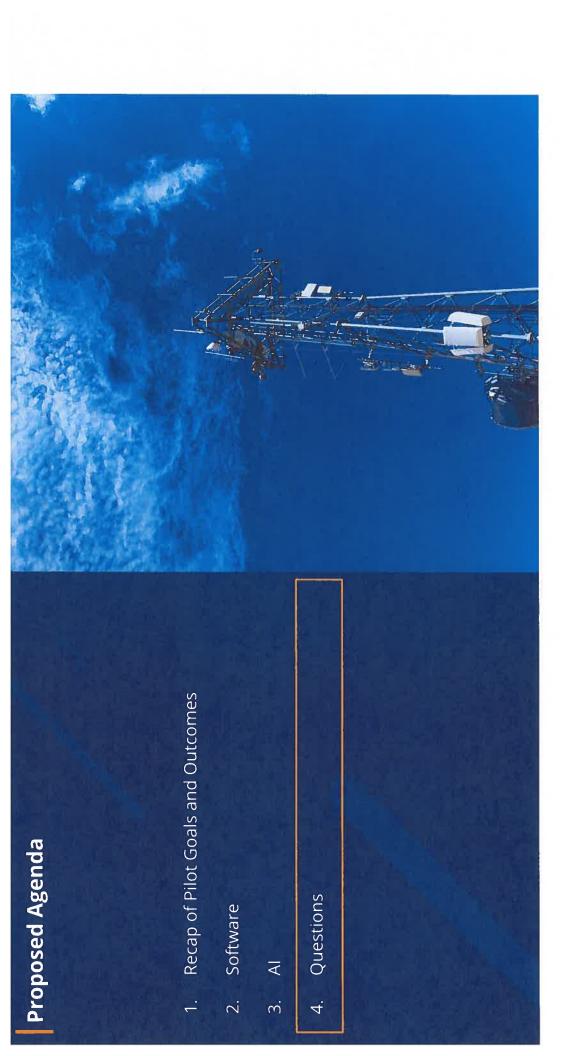

# Pano Detection vs. Other Sources of Detection

## Ranked by Criticality

Earliest Alert Source	911	911	Pano	Pano	911	Pano, Irwin	911	Irwin
Earliest Alert	17:09	17:03	16:00	13:14	18:15	13:42	14:04	15:54
Irwin Alert	17:11	17:05	16:10	13:15	18:23	13:42	14:14	15:54
Pano detect-	17:14	18:25	16:00	13:14	19:06	13:42	14:09	16:07
Pano Al (no Kalman)	17:12	17:43	15:58	13:13	18:52	13:40	14:07	15:55
Smoke Visible in Camera	17:08	17:10	15:38	13:12	18:14	13:37	14:00	15:35
Environmental Conditions	Clear	Very Hazy	Somewhat Hazy	Somewhat Hazy	Somewhat Hazy	Light Haze	Light Fog	Clear
Distance from Camera	12.4mi	11.2mi	12.9mi	12.9mi	8.6mi	8.8mi	2.6mi	6.8mi
Incident	#287 <u>Todd Fire</u>	#298 <u>Coyote Fire</u>	#496 <u>Shedhorn Mtn Fire</u>	#390 <u>Round Fire</u>	#310 <u>School Fire</u>	#418 <u>Diamond Fire</u>	#364 <u>Wilson Fire</u>	#262 <u>Creek Fire</u>

Note: Fires included in this set are vegetation fires with IRWIN alerts and Pano Al Alerts. The Earliest Alert data was generated from IRWIN alerts, local 911 calls, Calfire alerts, and CHP alerts.

## 2022 Staffing Proposal and 2024+Vision

## 2021 Staffing Model

Station 61	Station 62		
Career Firefighter/EMT	Career Captain		
Career Firefighter/EMT	Volunteer Firefighter/EMR		

## 2022 Staffing Model (Proposed)

Station 61	Station 62			
Career Lieutenant/EMT	Career Captain			
Career Firefighter/EMT (Medical)	Career Firefighter/EMT (Prevention)			
Career Firefighter/EMT (Engineer)	Volunteer Firefighter/EMR			

## **Total**

Year	Battalion Chief	Captain	Lieutenant	Firefighter	Total FTEs	Volunteers
2021	0	3	0	6	9	40
2022	0	3	3 (add 3)	9 (add 3)	15	50 (add 10)

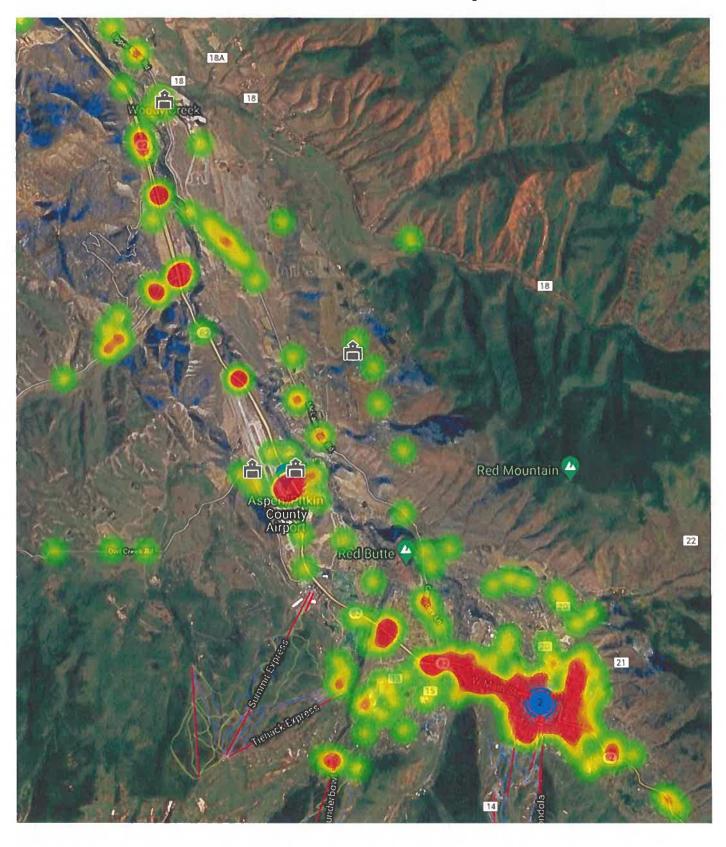

## **VISION**

## Vision 2024 Staffing Model (NFPA 1710/1720 Compliant Vision)

Station 61	Station 62		
Extra policie de la Caración de la C	Battalion Chief		
Lieutenant	Lieutenant		
Engineer	Engineer		
Firefighter/EMT	Firefighter/EMT		
Vol. Firefighter/EMR	Vol. Firefighter/EMR		
** Minimum of 7 additional volunteers to respond from out of station			

<sup>\*\*</sup> In 2024, with crews of 4 at Stations 61 and 62 we will meet or exceed the NFPA 1710 and 1720 response time requirement of 4 personnel on scene within 5:20 seconds of dispatch for 90% of our calls and 15 personnel on scene within 9 minutes for Urban area (Station 61) and Suburban area (Station 62). The goal for 2024 vision is to meet NFPA 1710/1720 base standard and remain majority volunteer. This is only one potential way to achieve this goal. Many other great ideas have been brought forward and the time between 2022 and 2024 will be used to vet and ground proof these other concepts.

## **All-Call Heat Map**

## Reasoning for this proposal

ESCI May 2020 Study

Figure 36: Financial Impacts of Option 3

		Option 3					
	Decision Units	Unit Cost	Actual FTEs	Total Cost	Onboarding	Total Cost	
Station 61 (4 FF/EMT per shift)	4	\$343,688	15.00	\$1,374,750	\$112,500	\$1,487,250	
Station 62 (4 FF/EMT per shift)	4	\$343,688	15.00	\$1,374,750	\$112,500	\$1,487,250	
District Total FY 2020	8	\$687,376	30	\$2,749,500	\$225,000	\$2,974,500	

"Although this option does not bring AFPD into full compliance with NFPA 1720 or ISO criteria, it does provide a significant improvement in the ability to handle both current and future service demand. It also represents an entry point for AFPD to begin the development of a deployment system based upon industry best practices. Whether or not AFPD implements this option today or in the near future, some variant of this deployment model should be adopted for the District to operate more effectively, safely, and efficiently. This option represents the absolute minimum staffing levels advisable in a fire rescue system." – (Pg 48, ESCI May 2020 Study, Staffing Option 3)

## NFPA 1710 Summary

## **Company Staffing 1710 (Crew Size)**

## Engine = minimum 4 on duty

- High volume/geographic restrictions = 5 minimum on duty
- Tactical hazards dense urban area = 6 minimum on duty

Truck = minimum 4 on duty

- High volume/geographic restrictions = 5 minimum on duty
- Tactical hazards dense urban area = 6 minimum on duty

Low hazard (residential single-family dwellings 1200sf)
Medium hazard (three story garden apartments or strip malls)
High hazard structures (high-rise buildings)

**Initial Alarm Deployment (\*number of fire fighters including officers)** 

- Low hazard = 15 Fire fighters
- Medium hazard = 28 Fire fighters
- High hazard = 43 Fire fighters

## **Response Times**

## First Engine Arrive on Scene

• 240 sec (4 min)

## Initial Full Alarm (Low and Medium Hazard)

• 480 sec (8 min)

Initial Full Alarm - High Hazard/ High-Rise Time

• 610 sec (10 min 10 sec)

# NFPA 1720 Summary

# **Staffing and Response Times**

Demand Zone	Demographics	Minimum Staff	Response Time	Meets Objective
Urban area	>1000 people/mi <sup>1</sup>	15	9	90%
Suburban area	500-1000 people/ml <sup>1</sup>	10	10	8096
Rural area	<500 people/mi <sup>3</sup>	6	14	80%
Remote area	Travel distance ≥ 8 m	4	Directly dependent on travel distance	90%
Special risks	Determined by AHJ	Determined by AHJ based on risk	Determined by AHJ	90%

# AFD Response Times

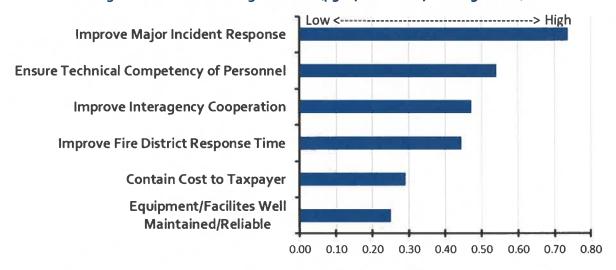

Times	NFPA Standard	AFPD 2021	AFPD ESCI Report
All-Call Turnout Time	1:20	4:42	07:30
All-Call Travel Time	4:00	5:43	13:41
All-Call Response Time	5:20	10:25 -5:05	21:11 -16:09
Fires Only			
All-Call Fire Turnout Time	1:20	3:05	09:28
All-Call Fire Travel Time	4:00	7:39	15:12
All-Call Fire Response Time	5:20	10:44 - <b>5:24</b>	24:40 - <b>19:38</b>

A jurisdiction can have more than one demand zone.

Minimum staffing includes members responding from the AHJs department and automatic aid.
Response time begins upon completion of the dispatch

# Customer Centered Strategic Plan

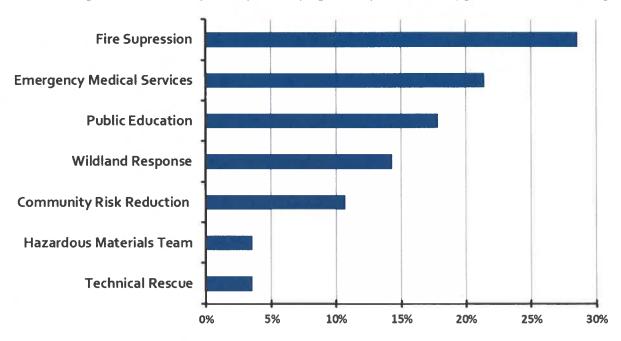

Figure 1: Citizen Planning Priorities (pg10, AP Triton, Strategic Plan)

"The planning priorities were presented as a forced ranking of major incident response, response times, technical competency, equipment/stations, interagency cooperation, and cost containment. The respondents compared each planning element against all others and were forced to choose the more important of the two compared elements. Each element was compared to all others in the set. "

"Continued evaluation of opportunities to improve response times was a general expectation of the citizen forum."

Figure 2: Community Survey Identifying Priority of Services (pg12, AP Triton, Strategic Plan)

# OSHA Mandate - 2 in/ 2 out

"The safety of firefighters engaged in interior structural firefighting is the major focus of paragraph (g)(4) of the OSHA Respiratory Protection standard. This provision requires that at least two employees enter the Immediately Dangerous to Life or Health (IDLH) atmosphere and remain in visual or voice contact with each other at all times. It also requires that at least two employees be located outside the IDLH atmosphere, thus the term, "two in/two out". This assures that the "two in" can monitor each other and assist with equipment failure or entrapment or other hazards, and the "two out" can monitor those in the building, initiate rescue, or call for back-up." (Letter from John B. Miles, Jr. Directorate of Compliance Programs, OSHA to Kurt Varone)

# **Current Staffing Impacts**

2065.5 hours of OT total through September. 1,683 hours directly related to PTO usage or covering the 4th(volunteer) slot to keep a station open. The remainder of the hours relate to trainings, meetings, covid testing, etc.

Also, in 2021 (January - October):

70+ days with staffing below minimum qualifications(No EMT, Officer, Driver/Operator, Qualified FF, etc.)

90+ days where we had to pay OT to keep station open

9 days we have had to close a station

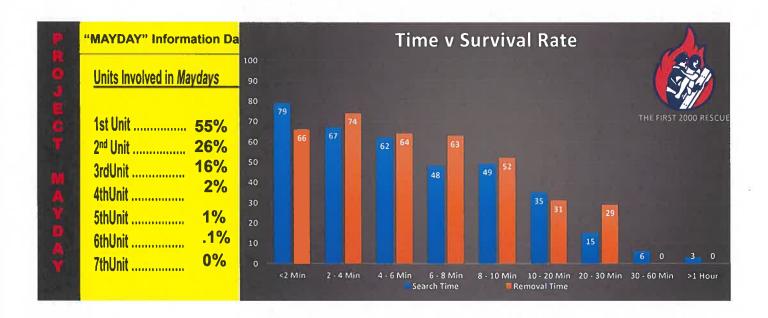

# **Modern -vs- Legacy Home Furnishings**

Time to Flashover: Legacy (natural fibers): ~ 30 minutes

Modern (Synthetic materials) < 5 minutes

# **Public and Firefighter Safety**

# Home fire deaths

For more information, review the full reports by the Federal Emergency Management Agency, the National Fire Incident Reporting System (NFIRS), and the National Safety Council:

- One civilian fire-related death occurs every 144 minutes or a little over every two hours.
- In 2018, 82 firefighters died while on duty.
- Home fires account for 92% of civilian fire deaths.
- On average, seven people die in a fire a day.
- House fires cause an average of 2,620 civilian deaths each year.
- The majority of home fire deaths are caused by smoke inhalation.
- Every year 500 children (14 and younger) are killed by fire.
- More than 50% of children ages 5 and younger die while asleep during a fire.
- One civilian fire-related injury occurs every 35 minutes, or a little every half hour.
